

- 1 Customisable Labelling System: built-in LCE module** on the valve body made up of transparent protection plug and customisable tag holder using the LSE set (available as accessory). The customisation potential lets you identify the valve on the system according to specific needs.
- 2 Optimised dynamic fluid design:** energy savings thanks to the improved valve Kv value with consequent pressure drop reduction

- 3 High surface finish ball shutter: wear reduction,** increase in working life and reduced valve maintenance. Ideal for conveying dirty fluids, even with suspended solids and filaments thanks to the special design that permits **internal valve selfcleaning**
- 4 Locked ball seat carrier:** safe dismantling for maintenance with the Easyfit multifunctional handle or Easytorque kit
- 5 Ideal for horizontal installations: perfect seal even with low back**

- pressure. Silent and durable** even with strong vibrations and pulsating fluid
- 6 PVC-U shutter and springs** available made of STAINLESS steel 316, Hastelloy C276, A316 PTFE encapsulated: maximum reliability in a **wide field of applications** from salt water to aggressive acids
