

1 Electric actuator constructed according to FIP specifications; with plastic shell and standard emergency override. Available with voltages from 12 to 240V.

2 Rack & pinion type pneumatic actuator constructed according to FIP specifications: fully protected

against weather corrosion available in double-acting (DA) or simple-acting normally closed (NC) or normally open (NO) versions.

3 **Drilling pattern with oval slots** that allow coupling to flanges according to numerous international standards.

4 **Interchangeable liner** with the dual function of forming a hydraulic seal and isolating the body from the fluid.
