

1 Innovative Easyfit quick release handle made up of a central hub firmly coupled with the stem valve and **dual spoke grip** that can be released from the hub with a simple operation and used as **a ball seat adjustment tool** and as a **union nut tightening tool** thanks to the hooked insert that, perfectly adapting to their external profile, allows the handle to transform into a wrench to control union nut rotation

2 Customisable Labelling System: built-in LCE module in the hub made up of transparent protection plug and customisable tag holder using the LSE set (available as accessory). The customisation potential lets you **identify the valve on the system** according to specific needs

3 PTFE ball seat system with locked carrier adjustable via the Easyfit quick release handle

4 Stem with high surface finish and **double O-Ring** and **PTFE antifriction disk** that limits friction to a minimum and grants excellent operating torque

5 Locking device in closing and opening via lock

6 Machined high surface finish ball that guarantees a smooth operation and increased reliability.
